

Royds Hall High School

Young Apprenticeships

CONSTRUCTION
YOUNG APPRENTICESHIP PROGRAMME
Kirklees Construction Skills Academy

Course details

This is a two year course delivered on two days a week.

Tuesday and Thursday 9.30 am to 3.00 pm

The Young Apprenticeship programme gives a taste of real work while learning. The programme combines classroom learning with practical learning.

Learners will:

- Spend 50 days (spread over Years 10 and 11) gaining experience of work with an employer on their premises, going to visit employer locations such as building sites and employers coming into centres giving talks to the learners
- Work towards Level 2 work-related qualifications and will gain a range of applied qualifications equivalent to at least 4 A* to C GCSEs
- Work towards practical skills – brickwork, joinery, plastering, etc.

What will I learn?

You will:

- Experience a more practical type of learning with opportunity to apply skills and knowledge
- Acquire skills for enterprise and employability and understand your importance in the work place
- Experience the day to day expectations of employees, their working practices and environments and their rights and responsibilities
- Gain knowledge of the range of progression and career opportunities available to you and the qualifications, skills and attributes required
- Study 3 compulsory units in Health and Safety, Understanding the Construction Industry and Sustainability
- Study 9 optional units which cover brickwork, joinery, plastering, tiling, roofing, plumbing, painting and decorating, wall paper hanging and electrical work.

How will I be assessed?

Assessment is through coursework assignments (no exams). There are a lot of assignments and the coursework will be extensive, demanding and challenging.

You will achieve a BTEC First Diploma in Construction at Level 2, Certificate in Manual Handling, COSHH, First Aid and a CSCS card.

Is there anything else I need to know?

You will need:

- A keen interest and commitment to the construction industry
- To aim to achieve a Grade C or above in GCSE
- A good report from school for attendance and punctuality
- A successful interview and assessment with the provider
- To be a committed individual and often participate in work placements and additional training/activities related to the programme during school holiday times

Future Opportunities:

The Young Apprenticeship programme aims to give motivated pupils the opportunity to learn specific skills and is ideal as a stepping stone to a full-time Apprenticeship or other training, and to further learning and employment.

This programme will:

- Enable you to move onto a level 3 apprenticeship or level 3 College course
- Enable you to hopefully gain full time employment in the construction industry or associated industries
- Equip you with the knowledge to work for companies as a joiner, brick layer and other associated roles, or to work in a technical role such as architect, designer, site manger.
